EDUCATION

Chennai Institute of Technology | Chennai, TN

September 2023 - April 2027

B.E. Computer Science and Engineering(Artificial Intelligence & Machine Learning)

CGPA: 9.04/10 (as of 1st to 5th sem)

WORK EXPERIENCE

Dnyx Business Solutions Private Limited | *Full-Stack Web Developer (Remote)*

Nov 2025 - Mar 2026

- Developed a Female Entrepreneur website and an e-learning platform using Next.js, TailwindCSS, Node.js, and Express.js.
- Improved UI performance and SEO optimization while contributing to both frontend and backend development.
- Worked with PostgreSQL and AWS RDS, gaining experience in deployment, scalability, and backend system configuration.

CITBIF | *Software Developer Intern (On-Site)*

May 2025 - June 2025

- Implemented secure syllabus uploads using MongoDB GridFS with multi-level approvals and role-based access control.
- Automated curriculum generation using DOCX template merging with real-time approval notifications.
- Developed a MERN-based role-driven academic management platform improving syllabus creation & faculty productivity.

NullClass EdTech Private Limited | *Data Science Intern (Remote)*

Nov 2024 - Jan 2025

- Built 2 AI applications: NMT system and analytics dashboard processing 10K+ records, showcasing ML development.
- Developed deep learning and NLP models (4.2M parameters, 100K+ samples) achieving BLEU 35 and <100ms latency.
- Created production systems including GUI translator and auto-refresh dashboard (6+ modules) for real-time insights.

PROJECTS

AI Codebase Flow Visualizer Agent | *LLMs, LangChain, LangGraph, Babel Parser, React Flow, React.js, Node.js, Express.js*

- Built a multi-agent AI system to analyze and visualize frontend-backend interactions, improving codebase understanding.
- Developed an AST-based parser to extract **50+** API routes and database flows, enabling accurate execution mapping.
- Designed an interactive graph UI supporting real-time tracing of 200+ nodes/edges, reducing debugging effort by **40%**.

CodeQuest - Tech Community Website | *React.js, Redux, i18next, Express.js, JWT, MongoDB, Multer, Nodemailer, Twilio*

- Built a full-stack Q&A platform supporting **500+ users** with real-time interaction and knowledge sharing.
- Implemented authentication, tagging, and multilingual support, increasing accessibility by **60%**.
- Integrated AI chatbot, OTP verification, and video uploads, improving user retention by **35%**.

StreamLine - Video Sharing Website | *React.js, Redux, ZegoCloud UIKit, RecordRTC, React Google Oauth, Express.js, MongoDB*

- Developed a YouTube-like platform supporting **1000+ video uploads** with seamless streaming and interaction.
- Built a custom video player with gesture controls, improving user interaction efficiency by **45%**.
- Integrated video calling with screen sharing, reducing external tool dependency by **50%**.

TECHNICAL SKILLS

Languages: C, Python, Java, JavaScript, TypeScript, SQL, No-SQL, GoLang Basics

AI / Data Science: NumPy, Pandas, LLMs, ML, DL, OpenCV, Transformers, Scikit-learn, Pytorch, TensorFlow

Front-End: HTML, CSS, TailwindCSS, ShadcnUI, React.js, Next.js, Zustand, Zod

Back-End: Node.js, Express.js, RESTful APIs, JWT, WebSockets, Socket.io

Databases: MongoDB, MySQL, PostgreSQL, Prisma

DevOps / Deployment: Docker, Netlify, Vercel, Render, Railway, AWS

Tools: Git, GitHub, VS Code, Swagger, Google Colab

ACHIEVEMENTS

- Winner in **Electrothon 2024**, an Intra-college level hackathon.
- Solved coding across platforms: **LeetCode (620+)**, **CodeChef (200+)**.
- Max Ratings: LeetCode: 1898, CodeChef: 1576.

CERTIFICATIONS

- Deep Learning | NPTEL
- CCNA 1 : Networks | Cisco
- AWS Cloud Foundations | AWS
- Python Essentials 1 | Cisco
- Introduction to Data Science | Cisco
- Python Essentials 2 | Cisco
