

NIKHIL KUMAR

+91 8235064218 | aryannikhil29@gmail.com

EDUCATION

Marwari College, Ranchi <i>Bachelor of Computer Applications (BCA)</i>	2023 - Present
Kendriya Vidyalaya Dipatoli, Ranchi <i>Intermediate</i>	Apr. 2022 – May. 2023 67%.
Kendriya Vidyalaya Dipatoli, Ranchi <i>Matriculation</i>	Apr. 2020 – Apr. 2021 84%.

EXPERIENCE

Technical Support Executive <i>Microsoft</i>	May. 2025 – Present
• Provided technical support to customers via phone, email, and chat, resolving hardware and software issues related to Microsoft products. • Utilized troubleshooting techniques to identify and resolve complex technical issues. • Collaborated with internal teams, including engineering and product development, to resolve customer issues and improve product quality. • Developed and maintained technical documentation and knowledge base articles to support customer self-service. • Participated in training and certification programs to stay current with new technologies and products.	
Technical Support Advisor <i>Concentrix</i>	Feb. 2025 – Apr. 2025
• Responsible to customer inquires and resolved complaints via phone, email and chat. • Provided timely and effective solutions to ensure high customer satisfaction. • Collaborated with internal teams to resolve complex customer issues. • Utilised CRM software to track customer interaction and resolve issues effectively.	

SKILLS

Tools and Softwares: Microsoft CRM, Microsoft Knowledge Base, Remote desktop tools (RDP, TeamViewer), Trouble Shooting Software (DebugDiag, Process Explorer)

Technical Skills: Technical troubleshooting and problem-solving, Customer service and communication, Collaboration and teamwork, Technical documentation and knowledge management, Microsoft products and technologies (e.g. Windows, Office, Azure)

Core Competencies: Multitasking, Web performance optimization, Leadership skills and teamwork, Proficient Communication Skills, Relation Building, Time Management, Adaptability nature.

EDUCATION

Chennai Institute of Technology | Chennai, TN

September 2023 - April 2027

B.E. Computer Science and Engineering(Artificial Intelligence & Machine Learning)

CGPA: 9.04/10 (as of 1st to 5th sem)

WORK EXPERIENCE

Dnyx Business Solutions Private Limited | *Full-Stack Web Developer (Remote)*

Nov 2025 - Mar 2026

- Developed a Female Entrepreneur website and an e-learning platform using Next.js, TailwindCSS, Node.js, and Express.js.
- Improved UI performance and SEO optimization while contributing to both frontend and backend development.
- Worked with PostgreSQL and AWS RDS, gaining experience in deployment, scalability, and backend system configuration.

CITBIF | *Software Developer Intern (On-Site)*

May 2025 - June 2025

- Implemented secure syllabus uploads using MongoDB GridFS with multi-level approvals and role-based access control.
- Automated curriculum generation using DOCX template merging with real-time approval notifications.
- Developed a MERN-based role-driven academic management platform improving syllabus creation & faculty productivity.

NullClass EdTech Private Limited | *Data Science Intern (Remote)*

Nov 2024 - Jan 2025

- Built 2 AI applications: NMT system and analytics dashboard processing 10K+ records, showcasing ML development.
- Developed deep learning and NLP models (4.2M parameters, 100K+ samples) achieving BLEU 35 and <100ms latency.
- Created production systems including GUI translator and auto-refresh dashboard (6+ modules) for real-time insights.

PROJECTS

AI Codebase Flow Visualizer Agent | *LLMs, LangChain, LangGraph, Babel Parser, React Flow, React.js, Node.js, Express.js*

- Built a multi-agent AI system to analyze and visualize frontend-backend interactions, improving codebase understanding.
- Developed an AST-based parser to extract **50+** API routes and database flows, enabling accurate execution mapping.
- Designed an interactive graph UI supporting real-time tracing of 200+ nodes/edges, reducing debugging effort by **40%**.

CodeQuest - Tech Community Website | *React.js, Redux, i18next, Express.js, JWT, MongoDB, Multer, Nodemailer, Twilio*

- Built a full-stack Q&A platform supporting **500+ users** with real-time interaction and knowledge sharing.
- Implemented authentication, tagging, and multilingual support, increasing accessibility by **60%**.
- Integrated AI chatbot, OTP verification, and video uploads, improving user retention by **35%**.

StreamLine - Video Sharing Website | *React.js, Redux, ZegoCloud UIKit, RecordRTC, React Google Oauth, Express.js, MongoDB*

- Developed a YouTube-like platform supporting **1000+ video uploads** with seamless streaming and interaction.
- Built a custom video player with gesture controls, improving user interaction efficiency by **45%**.
- Integrated video calling with screen sharing, reducing external tool dependency by **50%**.

TECHNICAL SKILLS

Languages: C, Python, Java, JavaScript, TypeScript, SQL, No-SQL, GoLang Basics

AI / Data Science: NumPy, Pandas, LLMs, ML, DL, OpenCV, Transformers, Scikit-learn, Pytorch, TensorFlow

Front-End: HTML, CSS, TailwindCSS, ShadcnUI, React.js, Next.js, Zustand, Zod

Back-End: Node.js, Express.js, RESTful APIs, JWT, WebSockets, Socket.io

Databases: MongoDB, MySQL, PostgreSQL, Prisma

DevOps / Deployment: Docker, Netlify, Vercel, Render, Railway, AWS

Tools: Git, GitHub, VS Code, Swagger, Google Colab

ACHIEVEMENTS

- Winner in **Electrothon 2024**, an Intra-college level hackathon.
- Solved coding across platforms: **LeetCode (620+)**, **CodeChef (200+)**.
- Max Ratings: LeetCode: 1898, CodeChef: 1576.

CERTIFICATIONS

- Deep Learning | NPTEL
- CCNA 1 : Networks | Cisco
- AWS Cloud Foundations | AWS
- Python Essentials 1 | Cisco
- Introduction to Data Science | Cisco
- Python Essentials 2 | Cisco

EDUCATION

Usha Martin University, Ranchi

Bachelor of Computer Applications (BCA)

Sep. 2022 – Jun. 2025

Kendriya Vidyalaya, Dipatoli, Ranchi

Intermediate, Scored 70%

Apr. 2020 – Apr. 2022

Kendriya Vidyalaya, Dipatoli, Ranchi

Matriculation, Scored 82%

Apr. 2019 – Apr. 2020

EXPERIENCE

Technical Support Advisor

Oct. 2024 – Current

Concentrix

- Responded to customer inquiries and resolved complaints via phone, email, and chat.
- Provided timely and effective solutions to ensure high customer satisfaction.
- Collaborated with internal teams to resolve complex customer issues.
- Utilised CRM software to track customer interaction and resolve issues effectively.

Data Science Intern

May. 2025 – Jul. 2025

NullClass EdTech PVT LTD

- Designed and implemented deep learning models for real-time age and gender detection using CNNs, achieving accurate demographic inference on live webcam feeds and video input.
- Automated data collection pipelines by logging detected age, gender, and timestamps into CSV/Excel files, enabling analysis of visitor demographics for mall/store environments.
- Fine-tuned model performance and conducted error analysis, applying regression metrics (MAE, RMSE, R^2) and confusion matrices to evaluate model accuracy and enhance predictions.

Web Development Intern

Jan. 2025 – Mar. 2025

NullClass EdTech PVT LTD

- Built a full-stack QA platform inspired by StackOverflow with advanced features including time-based video question uploads, multilingual chatbot secured via OTP authentication, and a dynamic reward/points transfer system.
- Engineered secure user workflows with role-based access control, limited daily password resets, and OTP-verified logins, supporting six Indian languages using custom logic for robust multilingual support.
- Integrated real-time interactive features such as chatbot queries, answer voting, and profile-based reward management, enhancing user engagement and system reliability through modular backend APIs.

PROJECTS

Real Time Application for Age and Gender Detection

May. 2025 – Jun. 2025

- Developed a real-time computer vision system using TensorFlow and OpenCV to detect multiple faces, predict age and gender, and identify senior citizens (60+) with live webcam/video feed.
- Automated demographic data logging by storing age, gender, and timestamp into a structured CSV file for analytics and visitor tracking in malls or public spaces.
- Trained and evaluated custom CNN models for regression (age prediction) and classification (gender detection) with performance visualization and real-time feedback in the GUI.

CodeQuest (A Technical Community website like StackOverflow)

Jan. 2025 – Mar. 2025

- Developed a full-stack Q&A platform inspired by StackOverflow with advanced features such as OTP-secured chatbot, time-based video question uploads, and a reward system with transfer capabilities and dynamic point management.
- Implemented secure user workflows including OTP-authenticated multilingual support (6 languages), daily-limited password reset with custom password generation logic, and role-based access control for interactive features.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Database Management Systems: MySQL, Oracle, MongoDB

Web Development: HTML, CSS, JavaScript, ReactJs, NodeJs, ExpressJs

Data Analytics: Power BI, Excel
